WHAT MOVES US

Living like everyone else: We at Lebenshilfen Soziale Dienste support socially underprivileged people and people with disabilities in this undertaking. All people are different, and this is why we provide customized personal assistance for people as they diversify their talents on the way to their life goals. Mindfulness, warmth, and readiness for dialogue are ingrained in our work. We provide security in life – and have been doing so for decades.

WHO WE ARE

We are the largest service provider for people with disabilities in the Austrian province of Styria. About 2,000 people in difficult situations use our services for work, housing, and leisure activities in Graz and its surrounding area (Graz Umgebung, Voitsberg, and Deutschlandsberg).

Lebenshilfen Soziale Dienste GmbH is part of Lebenshilfe Graz und Umgebung – Voitsberg, an association that was founded in 1960 as a parental self-help group primarily focused on one thing: to get support and protection for children with disabilities.

Today, we stand for a good life, for self-determination, and for the social participation of disadvantaged people with or without disabilities.
